Congress Scope

The First International Conference on Smart Transportation and Logistics: Towards Sustainable Transport Systems and Safer Mobility in Future Cities (ICSTL 2025) will be held at Constantine 1 - Frères Mentouri University, Algeria in December 10-11, 2025. ICSTL2025 is jointly organized by the Faculty of Sciences and Technology (FST) and the Laboratory of Transportation Engineering and Environmental (LITE). The conference will be conducted in a hybrid format, allowing authors to present their papers either in person or online. ICSTL2025 aims to foster the exchange of experience and knowledge among national and international researchers, while identifying key themes ranging from the design and functionality of computational and engineering sciences to their innovative applications. We are pleased to invite submissions of original research and contributions from both academics and industry professionals in the fields of Transportation and Logistics. The scientific program will feature keynote addresses, oral presentations, poster sessions and a partners' exposition from socio-economic sectors.

Conference topics includes :

1. **Advances in Transportation and logistics:** AI, IoT and Big data in transportation and logistics; Intelligent Transportation Systems; Sustainable Transportation; Smart Mobility; Sustainable Operations and Supply Chain Management; Logistics 4.0; Healthcare Supply Chain Management; and others,
2. **Smart Energy and Environment:** Smart Energy Systems; Electric and Hybrid vehicles; Environmental Impact, Regulations, and Future Prospects; Emissions and Pollutants; Emission Control; and others.

We also encourage socio-economic companies to present their challenges that could potentially be addressed by university researchers, as well as to showcase their products, equipment, services, and the impact of applied sciences and technologies on industry. The expected outcomes of this conference are to raise awareness among decision-makers and industrial leaders about the critical importance of supporting scientists and integrating them into the economic and technological sectors.

The Paper Template is available on the conference website.

Best Paper Award

The Best Paper Awards will be granted to authors of outstanding paper, as judged by an award committee composed of world-renowned experts. Professional awards will also be presented to individuals who have made exceptional contributions to the development of transportation systems in Algeria during the conference.

Proceedings and Publication

All Accepted papers will be published in the ICSTL 2025 proceedings with ISBN
